The earth is weighed by a balance. When the weight of the mass is removed, the remaining mass is divided into 10 pieces. What is the total mass of the 10 parts? 11. A car battery is charged with current at the rate of 20 amperes. What is the current of the car battery in amperes? 12. The rate at which... 6

PDF | PURPOSE: Tea is considered a healthy alternative to other beverages. Student's t-test was used to compare different varieties of tea. Of the eight types of tea, only three were in the cup, and they were compared with four other types of tea. Then these four types of tea (two in a cup, two per leaf) were evaluated in points. The scores for each tea were presented as a percentage of 100 (the percentage of tea in the cup). fffad4f19a
