Eqonomize! Crack+ Free Download [Win/Mac] [Latest]

Eqonomize! is a powerful application that can be used for keeping your finances in order. It helps you track your income and expenses in order to plan for your future. There are a few pre-defined accounts and categories that can be edited to suit your needs, and you can add new accounts or categories as you see fit. For example, you can use the application to keep track of your rent, electricity and gas bills, or to keep track of your stock portfolio, savings, credit cards and more. Eqonomize! has a streamlined and easy-to-use interface that enables you to work efficiently. You can switch between accounts, enter transactions and perform actions with ease. Moreover, it can be set to automatically sync with your bank accounts, which means that all of your activity will be reflected in your financial statements. For example, you can link your

bank accounts and enter transactions from within the application itself. The application can generate reports that provide information about your finances over time. These are fully customizable, and can be saved to HTML files, making it easy to edit and share them. Furthermore, the application can also generate various charts that make it easier to identify potential problem areas. What's new: Upd Eqonomize! 3.0 - Now, there's a mobile version! Today, we are pleased to announce the release of the first ever Eqonomize! mobile app! The app features a unique design and easy-to-use interface, which can be used to create your own customized, pre-configured accounts and categories, in order to keep your finances in order. It can be set to sync with your bank accounts so that you can easily enter transactions and transactions from your mobile phone or tablet. It can also be connected to your email accounts, and will show a summary of all incoming and outgoing transactions right from within the app. With Eqonomize! Mobile, you can stay in control of your finances! iTunes Review: "Eqonomize! can be described as the Swiss army knife of personal finance apps. It can be used for managing both small and large accounts and, because of its simplistic, easy-to-use interface, it can be used even by absolute beginners." "The main functionality of the application is to help you plan for the future. You can track the balance of each account, and even calculate the profit and loss of an investment.�

What's New in the Eqonomize!?

Eqonomize! is an easy-to-use personal finance management application designed to help you to organize your money and stay on top of your expenses. With Eqonomize! you can keep track of all of your accounts, set up strict budgets, and find out how much money you have left in any of them. It's also possible to pay bills online, manage your financial data and documents, and set up recurring events and activities that are regularly performed. • Manage multiple accounts in one place, and move money to any of them • Set up strict budgets for your finances • Track your finances, including your profits, income and expenses • Pay your bills • Find out how much money you have left in any of your accounts • Manage your documents and other financial information • Set up recurring activities and events • See detailed charts and reports on any of your finances • Quickly switch between your accounts, and work in real-time • Write cheques, accept payments and manage your credit card • Easily generate multiple types of reports and charts • Find out how much money you have left in any of your accounts • Easy-to-use interface, without any unnecessary visual clutter Ok, I would give this 5 stars but I can't find an option in the settings to turn on/off the sound. I want to be able to turn it off during the day when I'm in meetings, but when I'm in meetings or on the phone I don't want it to make any sound. Maybe I just have to use a different app for those times, I'm not sure. Ok, I would give this 5 stars but I can't find an option in the settings to turn on/off the sound. I want to be able to turn it off during the day when I'm in meetings, but when I'm in meetings or on the phone I don't want it to make any sound. Maybe I just have to use a different app for those times, I'm not sure. Nice app, useful app, but a big bug! Everytime I go back to the main menu, it asks me to change to the "menu" again and again... I haven't understood why this happens... The app

works very well, great speed and work. Nice app, useful app, but a big bug! Everytime I go back to the main menu, it asks me to change to the "menu" again and again... I haven't understood why this happens... The app works very well, great speed and work. The application is great but sometimes it gets "stuck" and doesn't respond to touch until I reboot my phone. This is a frequent occurrence when I've been taking a

System Requirements:
