Studios on April 8, 2010 in Las Vegas, Nevada. (Photo by Ethan Miller/Getty Images) The average member of the media put up a whopping 2,700 words on the new 'Glee' episode where Kurt finally opened up about his sexuality. It's been criticized by the gay community, but it's understandable. After all, the episode is the first to address the gay issue head-on. In this post, I want to go through the media coverage of the gay episode from an LGBT point of view. **New York Times** — In the **New York Times** article, they call the episode a good start, "Even though they have to hobble into the closet as they fight to keep their jobs," and that Sue told those who are "a little off" to go home." **Jersey Talk** — Apparently, they were too scared to write anything good about it. In the article, they called it a "controversial episode" and Rachel "has yet to determine how she feels about her son's sexual orientation," and that it's a "transitional episode." If you have not read it yet, read the GLAAD report on 'Glee' here. **Opinionator** — In the article, they said the gay episode

**Advertisements** Click the play button or the "Download Now" link on this page and install Moyea SWF to iPad Converter on your computer. The program is available for free at no cost and it works on Windows. You can either use the default installation folder or choose a special folder where you like to install new programs. There is also a built-in uninstaller which is very useful and allows you to return the program back to its previous state if needed. After the installation process is over, launch Moyea SWF to iPad Converter for the first time and you will be able to run it. The program is easy to learn because it has a very intuitive user interface, just drag and drop files to convert and hit the "Go" button to start the process. The main window has a small preview area, but you can enlarge it, and there is a playback controls allowing you to pause, rewind, or fast-forward. The main controls are located at the top of the window. You can change them by clicking the settings icon. This program is intended to convert not just SWF files, but you can also import your existing video files and convert them to various formats. The formats available for conversion are listed on the left side of the main window. Choose "Convert" to start the video conversion. You can customize your settings, but you can always use the "Settings" button at the top of the main window to control the program and use all available tools. This is all about the conversion process, where you have the ability to make quality settings, capture content, and choose conversion modes. For audio, you can either choose "Auto Detect" and let the program figure it out, or manually specify a format. If you see a red x, it means that the program is unable to detect audio, or that it detected it but it is not in the format you selected. After the conversion, just drag and drop your resulting file into your existing file or move it to a different folder. A program reminder window will pop up to let you know you've done a successful conversion.1. Field of the Invention The present invention relates generally to the field of corn breeding.
