Cabela's Dangerous Hunts 2013.Aida's Tutu An exclusive celebration of the life of the late Havelock Ellis. Here a chapter from his autobiographical book, Histories of My Mother's Life (1914), is reproduced, with a short biographical sketch, and a photograph of Aida,

---

then aged one year and five months.  
£16.00 (plus £2.50 post and packing)

Description This is an exclusive edition of the first edition of Aida's Tutu, a remarkable collection of material on the life and personality of Havelock Ellis, M.D., by his daughter. Among the many items are photographs, letters, notes, and memorabilia, relating to Ellis's early years and his discovery of homosexuality. The whole represents a unique record of his life and the

---

times in which he lived. Havelock Ellis (1900-1941) was a British psychoanalyst, writer, and aesthete; he was a founder of the British psychoanalytic movement. In the words of one biographer, he “laid the foundation for a whole generation of homosexuals”. He was also the first openly acknowledged homosexual writer of his time. Havelock Ellis's daughter, Aida, in her introduction to this collection, gives an account of his life in the phrase, “I am glad that

---

I knew him...” In it, we find a personal account of Ellis’s childhood and development as a young man, and a record of his relationships with his family and friends. The whole presents a rare and unique record of his life and personality, which he himself did not intend to be published. Several of the letters and other documents are written by those who knew him personally. This collection will remain a treasure for those who love the life and the

thought of this unusual Englishman.

SQL Server? I'm currently using:  
BackupDatabase SQLInstanceName  
to DirectoryName This works fine  
for me except one situation: If  
SQLInstanceName has a full-name,  
but DirectoryName does not.  
SQLInstanceName ends up looking  
something like this: MSSQL\$main If  
this happens, the BackupDatabase  
command errors out. Is there any  
workaround? A: If you need to  
perform a full backup, use the full  
recovery model. Determine if you

---

are using log-shipping, the full recovery model will prevent you from being able to restore the log-shipped databases to a different server. Database Backups The full recovery model is the default recovery mode, which performs full backups of databases and log backups of the log file for all databases in an instance. The full model cannot be changed except by using `ALTER RECOVERY`. SQL Server: Database Recovery Models

---

To ensure full backups are always taken, you should use the full recovery model for all databases in a server. When you use the full recovery model, the databases in your instance are protected against corruption due to a failed full backup. See for more info.

2014 YMF Commonwealth Games Closing Ceremony The Closing Ceremony of the 2014 Commonwealth Games was held on 21 July 2014. It was the final day of

---

the games. The ceremony began with a flag drop and the following two minutes of silence was held in memory of the deceased athletes from the 2014 games. The closing of ceremony saw each of the host cities' mascots present in front of a crowd to support the athletes. The ceremony featured songs including Crystal Fighters, written by Wirral-based musicians Phil Cohen (as lead vocalist 3e33713323
