Look for "Samsung TV Camera Driver Download".New Jharkhand chief minister Raghubar Das has called for a thorough probe into the deal between the state government and Tata group, saying an inquiry should be held to ascertain the true facts. “We will have to look into the true facts, we will have to look at all aspects of

this deal, whether it was fair, whether there were any pressures (that were) put on the government,” Das told the media on Wednesday. “The probe should be impartial and should be conducted on a professional level so that we can ascertain the true facts,” he said. On Tuesday, the state government announced that it had signed a pact with the Tata group for building the Tata Steel plant in Jamshedpur. The state government had offered the land for the steel plant in return for the Rs 500 crore the Tata group had invested in setting up of the steel plant. Das also said the railway ministry’s decision to start train services from Jamshedpur to New Delhi should be reconsidered and the project be entrusted to the state government.

“This was one of our seven stated objectives. And we have achieved all of

them,” he said. “In fact, if we look at our achievements, we can be proud,” he said. “We have achieved a lot. The people of the state deserve a lot of credit for our achievements.” ? But the JavaScript function expects an integer parameter. How do I convert the enum value to the integer parameter type in JavaScript? A: You're probably looking for JavaScript's.ToString() method. var number = 13; var myEnum = new EnumType(); myEnum.ToString(); // would give you "MyEn 4bc0debe42
